Rule 5.4 Requirements:

The application for a Permit shall be in writing and sworn to, and shall include the following:

(a) the name and mailing address of the applicant and the owner of the land on which the well will be located;

(b) if the applicant is other than the owner of the property, documentation establishing the applicable authority to construct and operate a well for the proposed use;

(c) the location of each well and the estimated rate at which water will be withdrawn;

(d) a statement of the nature and purpose of the proposed use and the amount of water to be used for each purpose;

(e) a map showing the location of all existing wells within a one quarter (1/4) mile radius of the proposed well or the existing well to be modified if requested by the District;

(f) a map from the county appraisal District indicating the location of the proposed well or the existing well to be modified, the subject property, and the physical addresses and mailing addresses of any person owning property within a one quarter (1/4) mile radius of the well or wells for which the application is filed;

(g) notice of any application to the Texas Commission on Environmental Quality to obtain or modify a Certificate of Convenience and Necessity to provide water or wastewater service with water obtained pursuant to the requested permit;

(h) a declaration that the applicant will comply with the District's Rules and all Groundwater use permits and plans promulgated pursuant to the District's Rules;

(i) a water conservation plan or a declaration that the applicant will comply with the Management Plan;

(j) a water well closure plan or a declaration that the applicant will comply with all Rules and/or TDLR Rules for well plugging and capping guidelines and report closure to the District;

(k) a hydrogeological report addressing the area of influence, draw down, recovery time, and other pertinent information required by the District (see Appendix A "Guidelines for Hydrogeologic Report") shall be required for the following:

(i) Requests to drill a well(s) or well field with a daily maximum capacity of more than 250,000 gallons; and
